

July 2008

Dear Realty Enhancements International 2008 Members,

I announce, with pleasure, good news for our organization. Effective immediately the new owner of Realty Enhancements International is Thomasine Johnson. Thomasine has been a member for several years. She graduated first from the Interior Arrangement and Design Association and then RES. She runs a very successful design business in Houston Texas, En'terior Designs.

Thomasine brings new energy and prospective to our group. She has a rich background having earned a Bachelor's in Business Administration and Interior Design as well as a Masters Degree in Community Development. She and her husband, George, own a prosperous Real Estate Development Company. Thomasine is a member of ASID, IIDA, National Organization of Minority Architects, IRIS, American Business Women Association, and Toastmasters International.

I am excited to hand over the reins to Thomasine who has vision, energy, experience, and high standards. I anticipate steady growth as she restarts classes early this summer. Please join me in supporting her in this new endeavor. Thomasine will certainly fulfill all membership responsibilities and more!

Thank you all for your continued support. Our clients need good credentialed stagers more than ever and they will find them at www.realtyenhancements.com.

Sincerely,

Wendy Dilda
